

# Oxid

Sculptural, straightforward design and a streak of light were the guidelines when Jonas Bohlin together with Örsjö developed the Oxid wall light. Initially it was designed for the well known restaurant Aira in Stockholm and from now on it is available as a standard product in our range. Oxid is an outdoor or indoor light with modern LED technique, that works excellent both on the wall or on a post. Oxid is available in Örsjö's classic materials Copper, Brass or painted steel.
